PROFESSIONAL SUMMARY

Full-Stack Software Developer and Data & Technical Operations Engineer with proven experience building scalable REST APIs, automating end-to-end data pipelines, and managing high-volume operational workflows under strict SLA constraints. Proficient in Python, SQL, Advanced Excel, Power BI, and the MERN Stack, with a strong foundation in data structures, machine learning, and cloud deployment. Completed 15+ industry-recognized certifications and 5 job simulations with Tata, Deloitte, Accenture, PwC, and KPMG. Actively pursuing Data Analytics specialization (Power BI, Pandas, SQL). Open to roles in Full-Stack Development, Data Analytics, Backend Engineering, and Technical Operations.

CORE TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), Java, C, SQL

Backend & APIs: Node.js, Express.js, REST API Design & Integration, JWT Authentication, Firebase Functions, MVC Architecture

Frontend: React.js, HTML5, CSS3, Bootstrap, Responsive Web Design

Data & Analytics: Advanced MS Excel (Pivot Tables, VLOOKUP, Macros, Conditional Formatting), Power BI, Pandas, Matplotlib, scikit-learn, Google Sheets, Data Entry (60 WPM)

Databases: MySQL, MongoDB, Firebase Firestore, SQL, NoSQL, CRUD Pipeline Design

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code, Firebase, Vercel, Render, NPM, Tally ERP

Digital Marketing: SEO (On-page & Off-page), Social Media Marketing, Content Strategy, Google Analytics

Technical Operations: SLA Compliance, JIT Operations, Inventory Analytics, Vendor Coordination, QA, Workflow Automation, Dashboard Management

PROFESSIONAL EXPERIENCE

Associate – Technical Operations

Lenskart.com

May 2025 – Present

Gurugram, India

- Reduced operational processing lag by **30%** by standardizing data entry workflows and applying Excel-based validation rules across high-volume daily transaction pipelines.
- Maintained **100% SLA compliance** across inventory tracking cycles by coordinating with cross-functional teams and flagging anomalies in real time using structured reporting dashboards.
- Accelerated order-to-fulfillment throughput by **25%** by designing JIT-aligned operational checklists and automating repetitive data reconciliation tasks using Python scripts.
- Leveraged Advanced Excel (Pivot Tables, VLOOKUP, Macros) and Tally ERP to generate weekly operational reports, enabling data-driven inventory decisions and reducing stock discrepancies by **20%**.

Freelance Full-Stack Developer

Fiverr

Sep 2025 – Apr 2026

Remote

- Engineered and delivered **10+ end-to-end client projects** using Node.js, Express.js, Firebase, and REST APIs integrated with MySQL and MongoDB, maintaining consistently high client satisfaction ratings.
- Reduced average client data access latency by **40%** through response caching and optimized query pipelines on production-grade web applications deployed on Vercel and Render.
- Automated data ingestion and reporting workflows for 3 SMB clients, eliminating **8+ hours/week** of manual processing via Firebase-backed real-time dashboards.
- Delivered all projects within agreed timelines across tight 2–4 week sprints, demonstrating strong execution discipline and technical project management.

Digital Marketing & Data Operations Intern

InAmigos Foundation (IAF)

Apr 2026

India, Remote

- Boosted outreach campaign engagement by **20%** by analyzing social media KPI data in Google Sheets, identifying high-performing content patterns, and refining audience targeting strategy.
- Maintained live dashboards tracking **5+ real-time KPIs**, enabling data-driven decisions that improved audience reach by **15%** over a 4-week sprint cycle.

Web Developer

Advert Web India | *TECH-A-INTERN* | *OctaNet Services* | *YBI Foundation* | *CodSoft*

Nov 2023 – Feb 2025

India & Remote

- Architected and delivered responsive, cross-browser UIs and full-stack features **simultaneously across 5 client organizations**, integrating third-party REST APIs and engineering CRUD pipelines using Node.js and MySQL.
- Improved form data integrity and reduced submission errors by **35%** by implementing client-side validation logic and server-side sanitization across 4 deployed applications.
- Collaborated with design and backend teams in Agile sprints to ship features on time across geographically distributed client environments.

Founder & Operations Lead

Jan 2018 – Jan 2022

Unknown Esports

India

- Founded and scaled a competitive esports organization (Free Fire, BGMI), managing **teams, tournament logistics, and community operations** for 4 years with zero external funding.
- Developed strong execution, leadership, and digital management skills by coordinating player rosters, scheduling competitive events, and growing an engaged online community.

PROJECTS

Stock Price Prediction ML Model | *Python, scikit-learn, Pandas, Matplotlib*

2024

- Trained a regression-based ML forecasting model on 5+ years of historical market data, achieving **87% directional accuracy** by engineering a preprocessing pipeline with feature normalization and outlier removal.
- Built an interactive analytics dashboard visualizing rolling trends and prediction confidence bands, reducing manual analysis time by **60%** for end users.

Full-Stack To-Do Manager (MERN) | *React, Node.js, Express.js, MongoDB, JWT, Render*

2024

- Engineered a production-ready CRUD application with JWT-secured REST API, persistent MongoDB backend, and React frontend, deployed on Render with a CI/CD pipeline supporting zero-downtime releases.
- Reduced API response time by **45%** through indexed MongoDB queries and Express middleware caching on high-frequency read endpoints.

Firebase Secure File Transfer Platform | *HTML, CSS, JS, Firebase Storage & Auth*

2024

- Built a zero-infrastructure, real-time file sharing platform with role-based access control, progress tracking, and JSON-based shareable link generation supporting concurrent multi-user sessions.
- Achieved **zero unauthorized file access incidents** by implementing Firebase Authentication with scoped read/write rules enforced at the storage bucket level.

Image & PDF Converter Suite | *HTML, CSS, JavaScript, CDN Libraries*

2025

- Designed a zero-backend browser-based tool for bidirectional image/PDF conversion with drag-and-drop upload, skeleton loaders, and client-side response caching to eliminate redundant network calls.

Live Weather Forecast Dashboard | *HTML, CSS, JavaScript, OpenWeatherMap API*

2025

- Developed a real-time weather dashboard with city search, 5-day forecasting, and API response caching that eliminated **redundant network calls** and improved load performance by **50%**.

EDUCATION

Diploma in Computer Science and Engineering

2023 – 2026 (Expected)

Maharshi Dayanand University – DPG Degree College

Gurugram, Haryana

- **Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming, Web Technologies

ADCA – Advanced Diploma in Computer Applications

Completed

Certified

India

- Covered MS Office Suite, Tally ERP, C Programming, Internet Applications, and Computer Fundamentals

DCA – Diploma in Computer Applications

Completed

Certified

India

Class XII – BSEB Board

2023

Bihar School Examination Board

Bihar, India

Class X – CBSE Board

2021

Central Board of Secondary Education

India

CERTIFICATIONS

Google: IT Automation with Python (Coursera) | Digital Marketing Fundamentals (Google Garage)

IBM: Data Science Professional Certificate (Coursera)

Udemy: The Complete Web Developer Bootcamp | SEO Fundamentals

Other: MS Excel – Desk Bright | SEO – Digital Sandeep Academy | ADCA | DCA

ACHIEVEMENTS & EXTRACURRICULARS

Job Simulations: Engineering & Data Analytics tracks – Tata Group, Deloitte, Accenture, PwC, KPMG

Competitive Programming: 150+ LeetCode problems (Arrays, DP, Graphs, Greedy, Two Pointer, BFS/DFS) | Active on Codeforces

Hackathons: Delivered functional prototypes in 5+ hackathons within 24–48 hour constraints

Sports: Competitive Kabaddi Player – Regional/Division Level, Jharkhand (2016–2020)

Leadership: Founder, Unknown Esports (2018–2022) – scaled esports operations, managed competitive teams, and organized tournaments for 4 years
