EXPERIENCE

Digital Marketing Intern April 2026 – Present
InAmigos Foundation (IAF) India, Remote
– Planned and executed social media outreach campaigns for a non-profit, monitored engagement KPIs, and refined content strategy to improve audience targeting and reach.

Freelance Web Developer September 2025 – April 2026
Fiverr Remote
– Engineered and delivered 10+ client projects end-to-end using Node.js, Express.js, Firebase, and REST APIs integrated with relational and non-relational databases.
– Shipped secure, production-ready web tools and backend services on tight timelines, maintaining consistently high client satisfaction across all engagements.

Web Developer November 2023 – February 2025
Advert Web India, TECH-A-INTERN, OctaNet Services, YBI Foundation, CodSoft India and Remote
– Architected and delivered responsive, cross-browser-compatible UIs and full-stack features simultaneously across five client organizations.
– Integrated third-party REST APIs, engineered CRUD pipelines, and implemented client-side form validation using JavaScript, Node.js, and MySQL.

PROJECTS

Firestore File Transfer App — HTML, CSS, JavaScript, Firestore Storage, Firestore Auth 2024
– Built a secure, real-time file upload and sharing platform with progress tracking, JSON-based link generation, and role-based access control via Firestore Authentication.

Full-Stack To-Do Manager — React, Node.js, Express.js, MongoDB, JWT, Render 2024
– Engineered a complete CRUD application with React frontend, Express REST API backend, JWT authentication, and MongoDB persistence, deployed on Render with a CI/CD workflow.

Stock Price Prediction ML Model — Python, scikit-learn, Pandas, Matplotlib 2024
– Trained a regression-based machine learning model for stock trend forecasting, incorporating a full data preprocessing pipeline and an interactive visual analytics dashboard.

Image and PDF Converter Suite — HTML, CSS, JavaScript, CDN Libraries 2025
– Designed a zero-backend, browser-based tool for bidirectional image and PDF conversion with drag-and-drop upload, skeleton loaders, and client-side response caching.

Live Weather Forecast App — HTML, CSS, JavaScript, OpenWeatherMap API 2025
– Developed a real-time weather dashboard with city search, 5-day forecasting, and API response caching to eliminate redundant network calls and improve load performance.

EDUCATION

Diploma in Computer Science and Engineering 2023 – 2026 (Expected)
Maharshi Dayanand University, DPG Degree College Gurugram, Haryana
– **Relevant Coursework:** Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming, Web Technologies
Class XII, BSEB Board (2023) | Class X, CBSE Board (2021)

CERTIFICATIONS AND ACHIEVEMENTS

Certifications: Google IT Automation with Python (Coursera), IBM Data Science Professional Certificate (Coursera), The Complete Web Developer Bootcamp (Udemy), Digital Marketing Fundamentals (Google Garage), SEO Fundamentals (Udemy)
Competitive Programming: Solved **150+ LeetCode problems** across Arrays, DP, Graphs, Greedy, Two Pointer, Sliding Window, and BFS/DFS; active on Codeforces at codeforces.com/profile/sawrrabh
Job Simulations: Completed engineering and data analytics tracks with Tata Group, Deloitte, Accenture, PwC, and KPMG
Hackathons: Delivered working prototypes in 5+ hackathons (online and offline) within 24 to 48 hour constraints
Interests: Backend Engineering, Full-Stack Development, Machine Learning, Cloud Computing, Competitive Programming
